QMUL Module Evaluation Scheme: 2018-19 SEM 2

Dear Anna Raute (MO)/Ioannis Galanakis (CT),

This email contains evaluation results for Labour Economics / ECN356/7

The results for the ten QMUL core statements are listed first, followed by those for any school-specific questions.

To provide a visual aid to help differentiate between more and less positive results, traffic light 'quality indicators' have been incorporated into the report. These are marked according to the mean score for the ten core statements, scores of less than 3.00 will be marked red, scores of 3.00-3.99 amber, scores of 4.00 and above green. The median score is also included for each statement in the report.

The scale on which students scored their views is as follows:

5 = Definitely Agree
4 = Mostly Agree
3 = Neutral
2 = Mostly Disagree
1 = Definitely Disagree

Schools and institutes are encouraged to use the traffic light system above and information from other sources such as Student Staff Liaison Committees to monitor module performance.

The data relating to Associate students has been collected to enable a further understanding of the experience of this particular group of students.

Also included in the report are the free text comments. Please note, if the students have completed these comments in pencil rather than pen (against instructions), they may not be as clear as they could be. This is not a fault of the scanning.

You will see that in the second part of the report, a profile line has been provided. You will receive a further report comparing your profile line to the School and Faculty averages.

We hope you find this report useful, please do continue to provide feedback on the evaluation process to your School Managers who will pass it on to ARCS and the Deans for Taught Programmes to enhance the scheme.

Thank you.

Comments Report

5. Your comments

5.1) What are the best things about the module?

lectures & classes

5.2) In what ways could the module be improved?

The lectures could be better linked with the classes

More online resources and practice questions

5.3) Is there anything else you would like to tell us about the module?

really enjoyed it
